

Team Round Scoring System

The format for the Team Round is different from the other tests. The Team Round lasts 60 minutes, and is divided into 9 sets of questions. You will start with Set 1, and will receive Set $k + 1$ after submitting Set k . You can take as much time as you wish for each set, but you cannot go back to a previous set after submitting it.

Sets 1 through 8 consist of short answer questions, similar to the earlier tests. Either your answer is correct or incorrect, and points are given accordingly.

Set 9 (the last set) consists of estimation questions. Your score is based on how close your answer is to the correct answer. More details about scoring are given in Set 9.

Each question within the set is equally weighted, but each set is weighted differently.

- Set 1: 10 points per question
- Set 2: 11 points per question
- Set 3: 12 points per question
- Set 4: 13 points per question
- Set 5: 14 points per question
- Set 6: 16 points per question
- Set 7: 18 points per question
- Set 8: 20 points per question
- Set 9: 25 points per question
